Music rates increased Jan 2016
 Plan calculations are based on
 24/hours. If you stream less hours a day
 your per song payment decreases by the
 percentage e.g., if you stream 12 hours your
 cost should decrease 50%. The \$134.95
 does not decrease—it's a monthly fee rate.
Number of stations (\$10-40 more) **2 free**

 calculated and if more than 1 station you will
 have to multiply the 31/day price x #stations
